(b) One complaint of misbehaviour of a doctor towards a patient has been received, which is under investigation.

(c) No, Sir, as no such complaint has been received.

(d) and (e) Do not arise.

Functioning of PLIM, Ghaziabad

8195. MAULANA OBAIDULLAH KHAN AZMI:

Will the PRIME MINISTER be pleased to state:

(a) what are the names of laboratories in which the Unani medicines were sent for test by CGHS Unani Store Depot and by whom;

(b) when the Pharmacopoea Laboratory of Indian Medicines, Ghaziabad started functioning;

(c) the number of medicines sent to PLIM, Ghaziabad, for laboratory test by CGHS Unani Store Depot and reasons due to which the services of such laboratories are not utilised when approval of medicines is made;

(d) the reports received from PLIM, Ghaziabad in respect of each such medicine; and

(e) whether there were some cases in which the items were sent for laboratory test to PLIM, Ghaziabad and after receipt of positive reports from the laboratory the orders were not released to the suppliers?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (DR. C. SILVERA): (a) In 1989-90, some medicines were sent for testing to PLIM, Ghaziabad by Unani Store Depot.

(b) It was started in December, 1970.

(c) Four medicines in February, 1989 and one medicine in June, 1990 were sent on the complaint of the Unani physicians. The Unani Store Depot was asked by PLIM, Ghaziabad, to procure single drugs from the manufacturers, used in preparation of such compound medicines which was beyond the control of Unani Stores and also it was not certain the manufacturers would give the same single drugs which they used in compound medicines. Hence, the services of such laboratory are not utilised.

(d) A copy of the report is available at statement (*See* below).

(e) As the report of the five medicines sent to PLIM, Ghaziabad for testing was incomplete and the medicines could not be proved sub-standard, the supply orders were issued to the suppliers.

Statement

Chemicals findings on the supplied samples

Qualitative tests for Identification of constitutuents elements :

---

01. *Khamira Abresham Hakim Arshadwala*

(M/S the Unani & Co., New Nelhi)
Batch No. 21, date of Mfg. Dec., 1988. Qty. 50 gm.

Identification tests for :

(i) Sugars —Positive

(ii) Gold —Positive

(iii) Silver —Positive

---

02. *Labub Kabir K.B. Vol. II.*

(M/s New Capital Dawakhana, Delhi)
Batch No. 3, Date of Mfg. 7-3-88 Qty. 50gm.

Identification test for :

(i) Sugar —Positive

(ii) Alkaloid —Positive

(iii) Tannin —Positive

(iv) Gold —Positive

(v) Silver —Positive

03. *Jawarist Jalinoos B.K.*

(M/s- New Capital Dawakhana, Delhi)
Bt. No. 55, Dt. of Mfg. 26-11-88 Qty. 50gm.

Identification test for :

(i) Sugars —Positive

(ii) Tannin —Positive

(iii) Alkaloid —Positive

04. *Majun Aradkhurma B.K.*

M/s. Himachal Drug Pharma, Amritsar)
Bt. No. 2423, Mfg. date - Nov., 1988.
Qty. 50 gm.

Identification test for

(i) Sugars —Positive

(ii) Alkaloids —Positive

Test Report of Jawarish Amla Sada

Name of sample :	Jawarish Amla Sada Marked as sample I & II
Batch No.	003
Mfg. by	M/s Medico Pharma, Hyderabad.
Received from	CGHS, Unani Store Depot, Sarojini Nagar, New Delhi.

Test findings for presence of sand particles

Description :	Appearance— Semisolid ; Taste - Sweetish and gives gritty feeling on keeping the sample between the teeth ; Colour—Dark brown; Small - characteristic.
Sample I	Total ash : 2.14% Acid - Insoluble Ash : 0.90%
Sample-II	Total ash ; 1.68% Acid - insoluble ash : 0.55%
Reference sample	Total ash : 0.464% Acid - insoluble ash : 0.42%
Result :	1. The percentage of Total ash of both the samples having the same batch No. varies much. 2. The total ash as compared to the standard reference sample is too high indicating the presence of Sandy/siliceous material as also appeared by taste given above.
